POWERRAM II SPECIAL HAND PUMPS

P350A

FEATURES:

- Jackson's hand pumps are always featured with their rugged construction and low handle efforts.
- Aluminum alloy construction and hand size release knob with anti-binding mechanism are truly suitable to industrial requirements and your daily needs.
- Special design with aluminum alloy construction as much light weight is ideal for easy portability and maneuvering.
- Robust oil reservoir design allows the hand pumps to be operated in all directions.
- Unique design of Triangle socket end creates much easy pumping efforts.
- The patent pending design of P350B consolidating pump and manifold valve as one piece that makes much convenient job on operating two single acting cylinders at the same time, but eliminating the extra needed adapters and accessories.
